Lebensohl:

Over Their Weak-Two Opening:

- 1) When the opponent opens a weak two bid, and we double either in direct seat or in balancing seat, Lebensohl applies by unpassed hand only
- 2) This does not in any way affect the meaning of bids that may still be available to

advancer at the two level.

- 3) Our responses are as follows:
- a) A jump to the three level of a suit is natural 8-11 hcp and indicates 5+ cards unless advancer is a passed hand, in which case he shows a max
- b) A non-jump bid of a suit at the three level shows values (not forcing)
- c) Jump to 4M shows 5+ cards
- d) 3NT directly is to play, denies a 4 card M.
- e) If advancer starts with the 2NT relay and then
- i) Cuebids opener's major = GF, four cards in the other M, no stopper
- ii) Rebids 3NT = four cards in the other major plus a stopper. Doubler may transfer to the Major.
- iii) If the opening bid was 2♦ standard Lebensohl cuebid practice applies
- f) Cuebid of opener's suit is GF. In rare cases may be too strong to bid 4M.
- 4) All jumps in new suits show strength/tricks

After Opener's Re-opening Double:

If the opponents overcall at the one or the two level directly over our opening, and if this overcall is passed around to opener who then re-opens with double, Lebensohl applies.

They Open and Raise a Suit:

- 1) If the opponents open and raise a major to the two level, and one of us doubles the opening bid, Lebensohl is 'on'. Also true if the opponent opens a minor and they respond and raise a major.
- a) Use the relay to compete to the three level without suggesting values
- b) Bid at the three level to indicate values
- c) With a GF hand with four cards in the unbid major use standard Lebensohl cuebid structure.

B) **LEADS AND SIGNALS**

Leads 2-4, low with small doubleton (Tx we lead T) against suits.

Upside down, odd even discards.

Almost always give the number of cards except for H leads (even in the middle of the play) or unless there is a clear situation for an attitude signal.

We play 2-4 when we move a suit (low encourages) although we could be playing top from nothing or lowest to make it easier to our partner

Natural present count against NT, upside down present count against suits.

On lead in partner's suit against NT, if the number of cards in the suit is known, we lead attitude

C) AGREEMENTS

Over weak openings 4♣ is keycard (except over 3♣ where it would be 4♦).

When opener doesn't bid 1NT as a his second bid, he promises an unbalanced hand.

JS over overcalls are weak, but without intervention it's invitational (except 1m - JS in o/m, where it is constructive raise in m).

When supported in a M, the only time 3NT is a choice of games is when there is a jump to 3nt, if not it's non serious.

1x - 1M - 3M next step asks for shortness and we answer NLMH.

1x-1y-2NT: 3♣ Forces to 3♦ to show any sign off or 5332. 3♦ Any GF

1m-1M-2N, oM shows at least 10 cards in Ms.

1m-1♥-1NT-2♠: 5♥- 4♠ Inv

1m-1♥-1NT-2♣ - 2♦ - 2 ♠: 4♥ - 4♠ Inv

If partner opens or overcalls 1x any direct jump to game is to play (except opponents)

(1x) - P - (1y) - 2y = suit. 2x = Michaels

D) Competitive Bidding:

General agreement: except where specified otherwise in these notes, doubles of artificial bids show length & strength in the suit doubled

Splinter Doubles:

- 1) Lead-directing in that suit unless they are in ♥ in which case it's takeout (usually a ◆ suggested sacrifice)
- 2) Suggests a save in the suit doubled when we are not vul (or in ♠ if opponents suit is ♥)

Doubling Stayman & Transfers & Drury:

- 1) Over the opponents' STRONG 1NT: Double promises at least five good cards in the suit doubled. We do not double with a completely hopeless zero-trick hand (e.g. don't double with xxx xx xx QJTxxx)
- 2) Over the opponents' WEAK 1NT: doubles of Stayman and Transfers are takeout

Doubling Bergen/Drury: Takeout

Doubles of a Michaels cue bid/Unusual NT

1) The double creates a force. If the double is of 2m, it creates a force thru the 2 level. If the double is of 2M/2NT it creates a force thru the 3 level. Thus 1 - (2 - X - (3))-pass would be forcing. 3 - X + (3)-pass would be forcing. 3 - X + (3)-pass would be forcing.

If you double and double again, it is takeout. If you pass and then double, it's takeout.

Support Doubles & Redoubles:

- 1) Through 2M
- 2) On when responder bids a major at the one level whether or not over interference

- 3) Off over Sandwich 1NT overcall
- 4) Is not mandatory when hand suggests other action.
- 5) Also ON when responder has bid 1 over a 1 overcall

Double in 4th over opponents 1NT Note#13

When opponents open 1NT our X in balancing position shows the following values:

NV vs VUL: 9+ NV vs NV: 10+ VUL vs VUL: 11+ VUL vs NV: 12+

These values are just for reference as it's flexible and penalty oriented. Partner should pass with a balanced 9/10+ hand (open to hand evaluation) and bid with more unbalanced hand, so $2 \checkmark / \checkmark / 4$ are usually 5 card suits while 2 4 could be as short as 2. After advancer pulls out the double, if doubler bid's another suit it doesn't show any extras, just not enough tolerance to play in the suit partner bid.
